er of the Waters. Naturally, in such a small group, the secret is not very well kept and it is soon known who has sent a present, why, and when. Many people in this group, and some in Class A, entertain the fear that they may become themselves possessed by a deity, especially if they expose themselves to cult activities during a ceremony, and for this reason they do not attend the rituals. To a certain extent this fear is the basis for the protest many of them make against night-long drumming, although the common complaint is that they cannot sleep because of the noise. The sound of the drums at night is very impressive, and no one is unaware that nearby the supernatural is being called. It is very disturbing to those who do not understand the mechanics of the ceremonies and the meaning of the drumming and sacrifices.

Spiritualism

Spiritualism, which does not use drums, is as disturbing as cultism to people of all classes, although because of its quieter character it is not always known when a session is taking place. Spiritualism seems to be gaining popularity in the area, although it is greatly feared by many people. It is slowly gaining adherents, however, because of the healing powers exhibited by the mediums. In most cases people are drawn to it, both in the town and in the rural area, through illness and the promise of a cure. Because of lack of aid from the doctor, or because of the expense of medical treatment, or perhaps because of the failure of the African cult to cure him, a patient may try spiritualism as a last resort. For those who are helped by it, it becomes a constant companion, and although they may have entered with fear, they soon lose it. They become staunch defenders and try to draw in their friends. The greatest successes in curing seem to follow the herbal treatments of the African cultists, but spiritualism requires no further obligations, as do the cults. It is common to hear someone say that attendance at a spiritualist seance cured him of some minor ailment and left him free of obligations, and that he did not even have to pay the medium. Spiritualism is also used to discover and counteract the evil eye and evil machinations of any enemy. In spiritualism one finds the same Indian spirits which are found in the local African cults, although no dancing is involved. There is now definite competition between the mediums and the cult leaders for adherents.

829 365 The irregularities and inadequacies of electric service in the city are attributed by many inhabitants of Bahia to what they call the "contempt of the Americans for the well-being of the people," as if the Americans were the only ones responsible for the operation of the American-Brazilian enterprise that produces electricity for the region. Everything that is or is supposed to be American otherwise enjoys great prestige. There is, however, a foreign group against which (or, more precisely, against 829 *563 578 the hidden "trust" that it represents) there exists a very strong hostility, although it manifests itself only on certain occasions. [443] It is a matter of emigrants from Spanish Galicia, accused of exploiting the populace owing to the monopoly that they have acquired in the grocery and bakery business. At certain times when tension [152] [458] [579] is particularly strong, as in 1930, and following the rapid rise of the price of commodities of prime necessity at the beginning of the last world war, the populace gave free vent to its discontent by plundering certain Spanish business establishments. But the attitude of the Bahians toward the person of these immigrants is free of lasting animosity, and marriages between the two groups are frequent. [261] The fact remains, however, that the population attributes to the Spaniards the shortage of certain food commodities, especially bread, and it accuses these emigrants of "enriching themselves off of the misery of the people."

529 *563 575 743 The recreational associations of the English, Spaniards, Syrians, and Lebanese are frequented by Brazilians. Likewise the hospitals maintained by the Portuguese and Spanish colonies are managed by Brazilian doctors and receive numerous patients from Bahia, white or colored.

795 771 The religion of the Catholic majority is traditionally much more external and ritualistic than dogmatic, the religiosity of a large number of those who call themselves "strict Catholics" being chiefly theoretical. This must have constituted a serious difficulty for the clergy; it is also a subject of astonishment for the visitor who imagines that he will come in contact with "the most 798 Catholic of Brazilian cities." The antagonisms between religious 621 groups are also moderate in this domain and /19/ never affect the
